## Peculiar After Effects

LEAVES KIDNEYS IN WEAKENED

have been kept busy with the epidemic of grip which has visited so many bomes. The symptoms of grip this year are very distressing and leave the system in a run down condition, particularly the kidneys, which seem to suffer most, as every victim complains of lame back and urinary troubles which should not be neglected, as these danger signals often lead to more serious sickness, such as dreaded Bright's Disease. Local druggists report a large sale on Dr. Kilmer's Swamp-Root which so many people say soon heals and strengthens the kidneys after an attack of grip. Swamp-Root is a great kidney, liver and bladder remedy, and, being an herbal compound, has a gentle healing effect on the kidneys, which is ystem in a run down condition, par healing effect on the kidneys, which is almost immediately noticed by those who try it. Dr. Kilmer & Co., Binghamton, N. Y., offer to send a sample bottle of Swamp Root, free by mail, to every sufferer who requests it. A trial will convince the property of the convergence of the will convince any one who may be in need of it. Regular size bottles 50c and \$1.00. For sale at all druggists. Besure to mantion this paper.

include Constantinople. Dr. Daneff, head of the Bulgarians, said:
"We leave England, having shown
the world that the Balkan union is not to bluff, but a real and important fac-tor in near-eastern politics. We intend that our alliance shall remain alive and

intact. "The feature of the situation which stands out is the unity of the great powers and the fact that none of them desires to take advantage of the troub-lous state of affairs in the near-cast. I am convinced that all the powers de-sire peace. The allies will always re-gard the collective note of the powers to Turkey as their magna charta.

"The immediate future rests with rifles and game Probably the content

rifles and guns. Probably the contest will be short and sharp. Probably there is in store for the world a bigger sur-prise than the earlier events of the war provided\_

"I have noticed in some quarters a disposition to accuse us of not exhibit-ing a conciliatory spirit. Is the public aware that in deference to the powers the allies, on three separate occasions, deferred the final act? To remain longer would be undignified and ridiculous."

### Says Troops Are United.

CONSTANTINOPLE, Feb. 1.—The grand vizier, Mahmoud Shefket Pasha,

graud vizier, Mahmoud Shefket Pasha, has issued a statement denying the report of fighting among the troops of the Tchatalja army. He says the troops were never more united in their devotion to the fatherland, as the encomy would find to their cost.

The grand vizier expressed the belief that Rumania would not reach an agreement with Bulgaria. He had never shared the belief of those who for the last three months had counted on the support of Rumania and he sincerely hoped that Rumania would have no occasion to regret her attitude in no occasion to regret her attitude in the war.

## Russia Preparing.

ST. PETERSBURG, Feb. 1.—General centenkampff, one of the few successful Russian generals in the Russo Jap-anese war, has been appointed comman-der in chief of the troops in the Vilna district. His force includes five army corps and will form the main western army in case of war.

the declaration to the represense of the powers and to the Britteign secretary, Sir Edward Grey, Tarkey desires peace and has great sacrifices to attain this observed by well 25 to show deference to at this late hour. The chances of success however, are considered slender. cess, however, are considered slender.

## Fighting in Trenches.

SOFIA, Feb. 1.—Turkish deserters who reached the Bulgarian headquarters at Demotica today told of the recurrence of sanguinary conflicts between rival factions of Turkish troops in the

Tchatalja lines.
The deserters declared that they fled from the Turkish camps because the Young Turks were persecuting partisans of the late Commander-in-Chief Nazim Pasha, who was killed during the out-break at Constantinople.

## of Grip This Year RECORD MADE BY SALT LAKE Doctors in all parts of the country EMPHASIZED

Resume in Concise Form of the Past Year's Achievements.

CITY COMMISSION

Absence of Frills Is Noted in the Report, Which Covers the Field in Its Entirety.

methods of administration have been introduced, and the first results there-of, are given in the manner that any citizen can comprehend.

## Summary of Record.

The summary is as follows: With this issue there is completed the written record of the first year of the commission form of government in Salt

allowed to make any contribution to any campaign fund.

3. The police department has been reorganized on a basis of honesty, hermony and efficiency, with all discordant elements eliminated. Patrolmen have been graded into three classes with efficiency as the guide for promotion from a lower to a higher grade.

## Rewards Prohibited.

5. Traffic policemen have been sta-tioned at the principal street intersec-tions of the city for the better regulation of street traffic and pedestrians using

public contractors.

During the year there was a total of 40,148 feet of pipe mains of 6, 10 and 12-inch sizes laid. Seven per cent of the 25 per cent saved was due to lower reight rates, 2 per cent was due to lower cost of pipe, and 16 per cent was due directly to the saving done by the department. The 25 per cent of saving thus shown on the total number of feet of pipe completed amounts to \$14,264.83.

## never lost a day. I am sure I could Park is Purchased. not have done so had it not been for the During the year filvers

ers. The inspectors who are specified to the several divisions are graded so that promotion from lower to the higher grade is made in recognition of merit and efficiency. The inspectors are also appointed with no special divisional designation, the idea being that they may be changed from one department to another as occasion may require and there by become familiar with the workings of each of the various sections.

15. During the pear special nuclits of the city's modes were made, bringing all accounts to into and disposing of many worthless accounts accumulated during the past years.

worthless accounts accumulated during the past years.

16. At the beginning of the year the city's money was deposited in the bank under an agreement that 2 per cent interest was to be paid upon average deposits and 4 per cent on overdrafts.

17. This has resulted in the city receiving a total of \$1814.70 in interest during 1912, and in paying out \$1729.52 for overdrafts. On the latter item there is also a saving of \$564.76 due to the difference between 4 per cent now paid and the 6 per cent formerly paid, making a total gain to the city of \$2679.55 for the year.

## Office Is Created.

### Above Suspicion.

Above Suspicion.

20. There has never been a charge or a suspicion of graft or selfish interest made against any member of the board of city commissioners, because the system adopted precludes opportunity for even an appearance of partiality.

21. The commission law requires the publication monthly of a summary of the proceedings of the board of commissioners, together with a report of the auditor, showing departmental receipts and expenditures.

22. This report in Salt Iske City has taken the form of the present publication. Its purpose is not only to conform to the requirements of the law but to onable the public generally, and taxpayers particularly, to ascertain exactly what business is being done without awalting an annual report as formerly.

Possibly nothing exemplifies the accomplishments of the board of commissioners and the several departments of the city's government as much as a comparative table of the city. The tabulated list shows the total warrants issued, the total net transfers for improvements, etc., and the grand totals of each for each year since January 1, 1904, together with the percentages of increase and decrease in total expenditures and total expenditures agregated \$634,157,41, of which \$679,678.70 comprised warrants issued and \$4451.62 the net transfers for improvements, etc. In 1904 the general expense increased 23 per cent, while the amount for warrants issued increased 19.3 per cent.

### Record for Six Years.

In the succeeding years the percentages of increase were as follows:
1906, total expense increase 12.5 percent, warrants increase 19.5 percent, total expense increase 21.5 percent, warrants increase 10.1 percent, 1908, total expense increase 9.6 percent, warrants increase 18.5 percent, warrants increase 18.5 percent, warrants increase 18.5 percent, warrants increase 18.5 percent, warrants increase 18.7 percent, 1908, total increase 18.7 percent, warrants increase 19.6 percent, 1911, total increase 19.7 percent, 1911, total decrease 1.4 percent, warrants increase 1.4 percent.

In the seven years from 1904 the average increase in total expenditures has been 11 percent and the average increase in warrants issued has been 10 percent.

Comparing 1912 with 1911 the increase

Comparing 1912 with 1911 the increase of total expenditures has been 3.3 per cent. or 1.1 per cent less than the average. Comparing the warrants issued the figures of 1912 show an increase over less than the average.

The decrease in 1911 total expenditures as compared to 1910 is due to the decreased amount spent for improvements in 1911. In 1910 the improvements amounted to \$202,137.88, while in 1911 the noted also that in the same comparative period the warrants issued, representing the general operating expenses of the lars.

period the warrants issued, representing the general operating expenses of the city, increased 8.4 per cent. Itemizing the comparison between 1911 and 1912 in the matter of warrants is-sued, in which, as noted above, there was an increase of 5.2 per cent, other data is obtainable.

## ARSON TRUST AGENTS ALL OVER COUNTRY

Cope of Topeka, granting her damages in the amount of one dollar against Bishop David H. Moore of Cincinnati, but de

Office Is Created.

18. The creation of the office of purchasing agent has resulted in a direct fraceable saving of more than \$33,000 during 1912. This department handled approximately in purchases and during the year received more than 600 invoices from 4rd different firms; all of there were checked in triplicate, distributed to the various departments in the city government and the bills paid. At no time during the year has there been a single complaint or a single difference between the city purchasing agent and the firms from whom he purchased goods. In the acity purchasing agent and the firms from whom he purchased goods. In the acity purchasing agent and the firms from whom he purchased goods. In the acity purchasing agent and the firms from whom he purchased goods. In the saving aggregated 62 per cent under the price paid in former years.

19. The creation of the office of city statistician, whose duty it is to keep comparative tables of every nature for the benefit of the commissioners or the public, is an innovation which has proved successful in many other cities, and bids fair to be an important adjunct of the local government.

Above Suspicion.

believe you will ever see a cent of it It was this particular sentence that caused Mrs. Cope to bring suit. Mrs. Robinson sent copies of the bishop's letter to other national officers of the missionary society and Mrs. Cope thereupon sued Mrs. Robinson on the grounds

letter.

Both Bishop Moore and Mrs. Robinson set up that there was no malice in continuous toward Mrs. Cope.

Municipal Publication Gives

NDER the title, "The Year's Achievement," the December issue of the Municipal Record, which comes from the press within the next few days, will contain, in concise form, a striking resume of the first year's record of the commission form of government in Salt Lake. Just what has been accomplished, what plans have been put into execution, what policies and

The December Record is given over almost entirely to this resume, which consists of a summary of all the annual reports of city officers and the various departments of government, and the deductions to be drawn there-

commission form of government in Salt Lake City.

It is for the taxpayers themselves to judge whether or not the present form of government has been a success or a failure. However, from the annual reports contained in this issue there may be deduced the following data:

1. During the past year all appointments have been made without reference to the politics or religion of the applicant; qualification has been the sole guide for selection.

2. No employee of any department is allowed to make any contribution to any

allowed to make any contribution to any

Members of the police department are prohibited by regulation from receiv-ing commissions or rewards without the consent of the board of city commis-

the crossings.

6. The efficiency of the fire department has been increased to such an extent that it is pronounced by the board of underwriters to be one of the best in

tent that it is bronched that it is bronched in of underwriters to be one of the best in the United States.

7. Firemen are now appointed into different grades and promoted from a lower to a higher grade on a basis of efficiency and ability.

8. The water department has replaced old pipss, relaid mains, and has demonstrated that it can do the necessary work of excavating for and installing watermains at a price 25 per cent less than was secured by letting the work to public contractors.

Citizens Given Work.

Eighty-five blocks were graded and graveled, 6813.4 square yards of cross-walks were laid at a saving of \$4701.25

over the average per square yard price of the previous year.

Receipts from poli tax show an increase of \$7794, or about 60 per cent permits for street excavations produced an increased revenue of \$2012.94, more than 100 per cent.

11. The policy of the city commission to encourage bids from all points to compete for public contracts has resulted in large savings in the matter of paving alone: the total approaches nearly \$150,000. The average price for street paving dropped from \$2.55 in 1011 to \$1.75. This saving means a very considerable amount to the abutting property owner who is compelled to pay special taxes for the work.

12. City parks have been beautified during the past year more than in any other five years in the city's bistory.

13. Magnificently equipped playgrounds have been installed in a number of the schools and public parks and every possible means has been used to encourage the general public in the use of these improvements.
